Balls to the Wall

**If you've got the balls,
we've got the bats!**

Balls to the wall, near the wall, or over the wall. It's all a matter of finding the gap. The exact place where you want the ball to go. With the pinpoint precision of the new Kelley Inspecch multi-wall bat, you can tell your sights in overfletted. Or set flat. Maybe right down the third base line. Or any other place you want.

From the small single to the machined aluminum end cap, every shape, every curve, every dimension, and every component has been designed with high performance, pinpoint accuracy, and durability in mind. Built from Diamond Flex 2000 alloy, the Kelley Inspecch is extreme gear for extreme play.

Get or visit our website today and request a free copy of our new 2000 Millennium Collection catalog for more information on the revolutionary Inspecch and our full line of softball bats and equipment.

Sync or Swim?

Syncing with the Best Solutions

Self-Sustainable SDH/SONET Networks

Superior network architectures or timing is a critical requirement to maintain self-sustainable, SELF-SUPPORTING networks and data integrity in today's networks and data intensive services. A highly demanding telecom service, a robust, reliable, and sustainable architecture providing features such as:

SDH	✓ Self-healing time taken lowering
Timing	✓ Proven performance tables
Extensive clock	✓ Superior timing recovery clocks
Reliability	✓ Redundant timing distribution system
Customization	✓ 10:1000 clocking technology
Flexibility	✓ Seamless integration of future requirements

is the best investment today for delivering superior telecom services. Contact us!

BDTUM-Aurora's new XcelNet™ Timing Signal Generator provides the best solution today for maintaining self-sustainable SELF-SUPPORTING networks and data integrity while preserving your investment.

The New AMBAR...

More than just a new coat of paint.

In case you haven't noticed, AMBAR has a new look. More than a fresh coat of paint, the new AMBAR is new ideas. New technologies. And a new commitment to success.

You can see the real difference today. In new resources and better products, in a wider and deeper range of services, in a substantial investment in new manufacturing facilities, research laboratories, and improved service points. More important of all, you will see it in an income and revenue commitment to our customers.

Isn't it time you gave AMBAR another look? For more information, call your AMBAR Fluids representative today as the sales office nearest you.

**New Resources.
New Technology.
Old Fashioned Service.**
